### Further Information

I grew up with horses and was inspired by my farrier at that time, who later became my mentor. Having longed for a profession in the equine industry it just seemed like a good fit. I never imagined the passion that would grow for this trade. I have two horses of my own at this time. I use Duplo horse shoes for a variety of reasons. The horses in my book currently in Duplo Horse shoes are a team of endurance horses as well as a young gelding we are working to correct an excessive palmar angle in both fronts causing degeneration of P3. (Club-foot). He has been in Duplo-shoes for 4 cycles. The first two were glued on, the others have been nailed. Duplo's have given ample support and protection in combination with a pour-in pad.
